# 15-DAY BUSINESS ANALYST INTERVIEW PREPARATION ROADMAP

A comprehensive timetable built from the files in the supplied preparation folder.

**15 study days | Source-by-source coverage | Practice outputs**

Prepared for interview practice. BA-specific interview guides, assignments and technical question sets are prioritized, while every adjacent reference, casebook, file and recording is also scheduled.

Created from the folder contents; no external study sources added.

# How to use this roadmap

Each day has focused study blocks and an observable practice output. The schedule assumes full-time study; shift the clock times if needed while preserving the sequence and tasks.

## STANDARD DAILY TIMETABLE

| | |
|---|---|
| **08:30-09:00** | Recall yesterday's topics; set today's goal. |
| **09:00-10:30** | Focused study block 1. |
| **10:30-10:45** | Break. |
| **10:45-12:15** | Focused study block 2. |
| **12:15-13:15** | Lunch / rest. |
| **13:15-14:45** | Applied case, technical or assignment block. |
| **14:45-15:00** | Break. |
| **15:00-16:00** | Practice, written output or oral rehearsal. |
| **16:00-16:15** | Review completion and list gaps. |

## SCOPE AND ACCURACY NOTES

- The folder contains 88 files: 74 PDFs, 9 DOCX files, 1 XLSX workbook, 1 JPEG image, 2 recordings and 1 JSON manifest. This PDF schedules every file at least once.

- The PDF inventory contains at least 5,117 pages across PDFs for which a page count was available. Large casebooks are assigned for contents-led review and selected-case practice; the plan does not claim page-by-page mastery of every book in 15 days.

- The two recordings are about 2 hours 41 minutes each and have matching durations. Treat the M4A and MP4 as alternate versions, not separate interviews. No transcript is supplied.

- Text extraction did not work reliably for Vault_Guide_to_the_Case_Interview.pdf. It is scheduled for direct inspection; its content is not summarized here.

- Some files concern adjacent Product Owner, product-management, consulting-case or data-science interviews. They are labeled as adjacent references, not core BA materials.

- The plan uses only the named folder files and their stated prompts. It does not invent interview answers or claim the sample resume describes you.

## 15-DAY SEQUENCE

Days 1-3: foundations and interview answers. Days 4-7: BA assignments, Agile/technical questions and practical cases. Days 8-11: consulting casebooks and interview guides. Days 12-13: remaining Agile cases, solved examples and adjacent references. Day 14: recording review. Day 15: final mock interview.

# DAY 01

## BA foundations, job preparation and resume

### DAY AIM

Understand the BA interview preparation approach in the supplied guides and establish a personal starting point from the provided resume example.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Read the beginner guide sections on the BA career, learning BA, job preparation and interview preparation.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Study the BA Interview Guide, especially the role, skills and project-story preparation material.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Review the sample resume and fresher/common question files. Mark examples relevant to your own experience.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Prepare a truthful resume walkthrough and introduction using your experience, not sample facts.

### END-OF-DAY OUTPUT

A resume walkthrough, a personal introduction and a short list of BA topics to revisit.

# DAY 02

## Core Business Analyst interview questions

### DAY AIM

Build and practice answers using the BA interview question-and-answer references in the folder.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Work through the 150-question and Bosscoder references. Mark BA role, responsibilities, requirements and analysis questions.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Work through the 50-question and merged references. Compare repeated prompts and supplied answers.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Review both BA interview PDFs under INTERVIEW and focus on their BA questions.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Answer selected questions aloud without notes, then check answers against the sources.

### END-OF-DAY OUTPUT

A set of practiced, source-checked answers to the BA interview prompts.

# DAY 03

## Scenarios, behavioral answers and interview technique

### DAY AIM

Practice scenario and behavioral prompts, comparing your responses with the supplied examples.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Practice scenarios from the 48-question BA file and identify what each prompt asks you to address.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Compare responses using the correct-versus-incorrect examples and tough-question/interviewing guides.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Use the product-management Q&A only as adjacent interview practice, not as a substitute for BA material.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Rehearse scenario and behavioral answers using truthful examples from your own experience.

### END-OF-DAY OUTPUT

Practiced scenario and behavioral responses, with a list of improvements grounded in the supplied examples.

# DAY 04

## Written assignments and domain-specific BA cases

### DAY AIM

Work through each supplied case prompt, following its requested outputs rather than adding a different assignment.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

List each case's requested deliverables before drafting.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Work on the Internet/Mobile Banking questionnaire and retail banking test. Outline the EMMS evaluation, initiation, delivery phases and requested timeline.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Work through the parental-control and publishing cases, following their BACCM, use-case, diagram, requirements and design prompts.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Outline the expiry-management process improvement, automation scope, functional design, technology recommendation and charter.

| | |
|---|---|
| **15:00-16:00** | **Study task 5** |

Outline the Salesforce prioritization presentation from its tasks; review the Student Systems Analyst exercise.

| | |
|---|---|
| **16:00-16:15** | **Study task 6** |

Use the Case Study Guideline to check assumptions and requested outputs for the publishing case.

# DAY 05

## Agile, Scrum, Jira and product ownership

### DAY AIM

Cover the Agile/Scrum/product-owner references and complete the short Agile exercise.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Study the Agile, Scrum Master and Product Owner interview references; note concepts and questions actually present.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Review Jira Q&A and complete the PO/BA exercise using its ecommerce scenario.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Review the Agile case-study summaries and exercises assigned today; capture case context and source-stated lessons.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Explain an Agile case or exercise aloud and answer follow-up prompts using the files.

### END-OF-DAY OUTPUT

Completed exercise notes and practiced answers for Agile, Scrum, product-owner and Jira prompts.

# DAY 06

## SQL, APIs, BI and technical question sets

### DAY AIM

Survey each technical interview reference and practice its question formats.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Study the first SQL question sets and practice the question types they contain.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Review the remaining SQL references, including SQL-IQ and the SQL interview guide; note repeated prompts.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Review REST API questions, followed by the Power BI interview question set.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Review both Tableau references, then orally rehearse selected SQL/API/BI questions.

### END-OF-DAY OUTPUT

A checklist of technical interview questions reviewed across SQL, REST APIs, Power BI and Tableau.

# DAY 07

## Practical BA cases, solved work and data exercise

### DAY AIM

Use the BA case assignments, workbook and BPMN example for applied practice.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Review the AI case collection and ITTSD, OS/PBA and Magneto tasks; practice tasks stated in the prompts.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Read the workbook Guide sheet and use its six questions and Extracts sheet to structure an analysis and presentation outline.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Work through the sample project requirements and Trade Finance prompt.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Inspect the BPMN exercise image and compare its recruitment-process steps with the BA assignment's process-mapping task.

### END-OF-DAY OUTPUT

One workbook-based analysis outline, case exercise notes and a record of the BPMN example.

# DAY 08

## Consulting case practice I

### DAY AIM

Use the first group of consulting casebooks for selected-case practice. These are broad case libraries, not BA-specific interview guides.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Use contents and introductory guidance in Illinois and Notre Dame to select cases.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Work selected cases from ATK and Columbia, focusing on each case's prompt and supplied reasoning/data.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Work through the imported-spirits and leisure-clubs cases; note case types identified in the sources.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Explain your approach and conclusion aloud, then revisit the source to check it.

### END-OF-DAY OUTPUT

A case-practice log naming the cases attempted and their source casebooks.

# DAY 09

## Consulting case practice II

### DAY AIM

Continue practice using the supplied university casebooks and written case example.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Review contents/guidance in Darden and Fuqua; select and attempt cases.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Select cases from Haas and Wharton; explain your structure, analysis and conclusion.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Select cases from Ross and review the Monitor written case.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Practice presenting a concise conclusion from written case material.

# DAY 10

## Casebooks, SDLC and case interview preparation

### DAY AIM

Review remaining assigned casebooks, the SDLC case and the case-interview preparation deck.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Use LBS and MIT contents to select and work a case from each.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Review projectcasestudy.pdf and select a relevant exercise for practice.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Read the SDLC case and connect its stated phases to the methodology prompt in the banking questionnaire.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Review Simon-Kucher case-interview preparation material and practice a response from the source.

### END-OF-DAY OUTPUT

An SDLC answer outline and case notes tied to the listed casebooks.

# DAY 11

## Case-interview guides and case compilation

### DAY AIM

Cover the remaining case-interview guides and the data-science/BA/MBA case compilation.

### STUDY BLOCKS

**08:30-09:00 Study task 1**

Review structure and practice material in Case In Point and Crack The Case.

**09:00-10:30 Study task 2**

Review Vault Consulting Guide and Vault Guide to the Case Interview. Inspect the latter directly if text search is unavailable.

**10:45-12:15 Study task 3**

Review the data-science, BA and MBA case/guesstimate compilation, using its examples.

**13:15-14:45 Study task 4**

Complete a timed case practice and give a concise conclusion.

### END-OF-DAY OUTPUT

A case-interview reference summary and one practiced case response.

# DAY 12

## Agile case studies and solved BA examples

### DAY AIM

Complete the remaining Agile case studies and learn from the supplied solved BA examples.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Review the Norwegian Scrum and enterprise content-management Agile case studies, using contents/sections.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Review the capstone Scrum case and Case Studies in Agility.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Study the solved tech assignment and identify its example structure for dependencies and release planning.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Review the solved techniques guide and cosmetics case; compare their examples to your assignment outlines.

### END-OF-DAY OUTPUT

Notes on the remaining Agile references and all three solved BA case-study PDFs.

# DAY 13

## Adjacent product and data interview references

### DAY AIM

Review adjacent-topic references while keeping them distinct from the core BA syllabus.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Review Ace Your Case and practice a case example from the material.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Review the product-manager interview guide as adjacent practice.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Review the data-science interview reference, prioritizing overlap with data, BI and case questions in the folder.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Revisit difficult BA questions without expanding beyond the supplied syllabus.

Notes separating core BA preparation from adjacent product/data interview references.

# DAY 14

## Recorded interview review

### DAY AIM

Review the supplied interview recording and capture questions/topics for final rehearsal.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Open the audio or video version and note the starting point.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Listen/watch and write down questions and answer topics that are audible.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Continue through the recording, pausing to capture question wording and topics.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Finish or replay unclear sections. The two versions have matching durations and are alternatives, not separate interviews.

| | |
|---|---|
| **15:00-16:00** | **Study task 5** |

Compare recording notes with questions in the supplied BA interview files.

### END-OF-DAY OUTPUT

A list of recorded interview questions/topics and items to rehearse. No transcript is supplied.

# DAY 15

## Final revision and mock interview

### DAY AIM

Rehearse role, scenarios, technical topics and a case response using only the supplied preparation materials.

### STUDY BLOCKS

| | |
|---|---|
| **08:30-09:00** | **Study task 1** |

Choose questions from the listed sources and one case exercise completed earlier.

| | |
|---|---|
| **09:00-10:30** | **Study task 2** |

Answer BA role, resume and project questions aloud without notes.

| | |
|---|---|
| **10:45-12:15** | **Study task 3** |

Answer scenario questions, then compare with the supplied examples.

| | |
|---|---|
| **13:15-14:45** | **Study task 4** |

Select technical questions from Day 6 and present one case/workbook analysis.

| | |
|---|---|
| **15:00-16:00** | **Study task 5** |

Use the guide and answer-quality examples for final review; record remaining gaps honestly.
